### **Testimonials of Jackie's Speed Reading Workshops**

***Your class was profound and inspiring and your post-class support will be treasured! I did click the link and hopefully that has completed the opt-in circle. Thank you for doing what you do so well!***

***"Profound and brilliant - thank you!"***

**(March 2012 Seattle Workshop Participant at the end of the class)**

***Jackie is a brilliant educator. He understands what motivates adults to learn and is skilled at organizing content and presentation in a way that makes sense and captures the learner's attention.***

***I had the pleasure of spending two days in Jackie's Speed Reading workshop recently. At the beginning of the workshop, I tested 200 words per minute with 60 percent retention. At the end, I was reading 800 words per minute with the same retention rate. I would have been delighted had I only doubled my reading speed, but quadrupling it? I'm thrilled. Jackie was also a pleasure to work with, a patient coach who makes learning enjoyable and brings his rich work experience - which includes a stint working at the Jet Propulsion Lab - to teaching.***

***"I have known for some time that my reading skills needed attention. I suffered from some of the symptoms of reading to slow - reading makes me tired, I would have to re-read sections as my mind would wander while I was reading, etc.***

***I walked into the class reading just under 200 words per minute with an 80% recall and retention rate. After two days of working with Jackie Giuliano, I was reading at just under 1,000 words per minute with the same retention rates and my skills have only improved since the class ended.***

***The speed-reading portion of the class was the primary reason I signed up. However the note taking portion and some of the other sections are just as valuable. I highly recommend this course and I wish that I would have learned some of these secrets about speed-reading and speed-learning years ago! This class was definitely worth every penny!"***
